District Clerk

Dear Prospective Universal Pre-K Provider,

The District is issuing this Request for Proposals for the Universal Pre-Kindergarten program to allow sufficient time for community-based organizations to plan, staff, and prepare for program implementation for the upcoming school year.

At the same time, the District acknowledges that the Governor of New York has proposed changes to the State's Universal Pre-K funding structure, and the District's final funding allocation will be contingent upon the State budget as adopted by the Legislature, which is not expected until April. Accordingly, any funding amounts referenced in this RFP are preliminary and subject to change based on the final enacted budget.

The District believes it is important to provide this context so that otherwise interested providers are not discouraged from responding based solely on current estimated per-pupil figures, which may not reflect final funding levels. Issuance of this RFP at this time is intended to support timely program planning and does not represent a guarantee of funding, award, or final program terms.

All awards and program funding will be subject to applicable law, final State budget determinations, and approval by the District's Board of Education.

We appreciate your interest in partnering with the District to support early childhood education and encourage eligible providers to submit proposals for consideration.

Sincerely,

Frank Macri
Superintendent of Schools
